#### 2.3.2 – Students mentoring system available in the institution? Give details. (maximum 500 words)

The welfare and betterment of every student are ensured through a well-established mentor-mentee system that vividly functions to facilitate the students. Students are assigned under the care of a mentor by the respective department head of the department, and it is made compulsory that the students meet their mentors at least once a month to develop and construct healthy communication and comfortable bonding with their respective mentors. The mentors take care of the students and closely monitor them in terms of their academic performance and disciplinary grounds. Mentors ensure that their mentees get proper exposure and awareness regarding various academic opportunities, NSS, NCC, sports, and other fine arts events. Since each mentor contacts their mentees and guides them from the very first day of the program, they build a mutual understanding with their mentees to analyze and identify their strengths and weaknesses to motivate and guide their mentees effectively. Keeping in mind the socio-economic background of their mentees, the mentors help them in availing scholarships and support them with suitable concessions in the fees structure. Mentors also aim to arrange career talks by prominent experts to enrich their mentees with broad and practical knowledge in the field they

wish to choose. As a part of the communication between the mentor and the mentee, the mentors walk them through career guidance, personality development, and even through personal grievances apart from pure academics. In case of students performing below their ability or if the student finds any difficulty in making use of their full potential, the mentors come forward in analyzing the difficulties and come up with possible remedies to get them out of the situation. In providing good quality education to the students, the mentors also try to include the parents/guardians along the process to counsel and incorporate healthy thoughts in the students in a much better way. The sole purpose of the mentor system is to create a peaceful and healthy college environment for the students and mold them into responsible citizens.

#### 7.1.7 – Initiatives taken by the institution to make the campus eco-friendly (at least five)

1. Plastic Free campus - For protecting the Ecology, the use of plastic is banned inside the campus. The college NSS conducts awareness programme regarding the harmful effects of plastic in the neighborhood. 2. In the roof top of administrative block 40 solar panels were installed to utilize solar power. 3. Green Landscaping - Lawns and medicinal plants have been planted and maintained by trained gardeners. Saplings are planted on the eve of birthday celebrations of students and on other important days and these trees are being a home for many species of birds. A beautiful "Kumbakonam Garden" has been maintained for women students. 4. Encouraging paper less communication - Internal Mark entry of all the departments has been sent to the Controller of Examinations through Intranet Facility. 5. Eco friendly campus - Use of vehicle inside the campus is totally prohibited and there is a separate vehicle parking area for staff members and students at the entrance of the campus. Students from nearby places prefer to come to college by walk. Trees are planted on both sides of roads which help the students to walk in the shadow. 6. Staff and students use pedestrian friendly path way from one place to other place. 7. Rain Water harvesting facility - In our college as per the order issued by the government of Tamil Nadu we have made arrangements to store the rain water in 11 places.

#### 7.2 – Best Practices

##### 7.2.1 – Describe at least two institutional best practices

1. Providing Hygienic Food at the Concessional Rate in the College Hostels  
 Objectives: 1. To lead the hostel life in an economic way. 2. To impart the culture of cooperation in running the hostel mess. 3. To build up a cooperation among the students in savings and thus prevent the wastage of money in purchase. 4. To train them to get good quality products at the low cost. 5. To offer the students the best hygienic food at the minimum cost. 6. To make their parents feel less burden on hostel mess payment. The context: The college has hostels both for boys and girls separately. The inmates are mostly from the most backward rural family living below the poverty line. The student run mess is the best practice provided by the college to lessen the burden of the poor parents to pay the mess bill of their respective students. The students are given leadership quality to run the hostel effectively as well as economically. They are given responsibility to purchase the needed items qualitatively at the low cost in the market. Also the student supervisor is given responsibility to prevent the wastage in preparation and in consumption. Students are fully satisfied to get the hygienic food at the cheaper rate in the hostel. This helps the student leaders and participants to get trained up to lead an economic life as and when they leave the campus. The Practice: The hostel mess committee chaired by the Principal, assisted by Sub-Wardens and Students representatives work in unison to bring the desired result in the hostel for the past two decades. Right from the purchase, the committee is looking after the well output of hygienic products from the kitchen. Even the water quality is also then and there checked and good compatible water is provided to the hostel inmates. The dividing basis of the expenses met out in the hostel will provide ample training to the inmates to lead a perfect economic life in their future. Inspecting the bills of purchase daily, registering the same in the ledger will be carried by the student representatives in the perfect manner and hence there is no leakage of money at any point of operation. Evidence of success: With the continuous support and an effective participation of the students, the institution is able to provide hygienic food at the concessional

cost of Rate Rs. 40.48 - Rs. 56.11 per day in the Girl's hostel and Rs. 52.33 - Rs. 65.28 per day in the Boy's hostel for the duration of June 2019 to April 2020. The objective set by the Mess committee is meticulously achieved. The real beneficiaries are the students and their parents. This is quite visible from the face of the inmates and their parents. 2019-2020 June July Aug Sep Oct B G B G B G B G B G 55 53.31 55 53.31 52.33 43.38 56.42 56.11 61.41 47.72 2019-2020 Nov Dec Jan Feb Mar Apr B G B G B G B G B G B G B G ---- ---- 62.84 48.88 57.43 49.86 62.55 46.09 65.28 40.48 65.28 40.48

Problems encountered: Due to the severe economic crisis of the low income parents it is understood that many are struggling to remit even the low cost bill itself. 2. Women Empowerment Cell: Objectives: 1. To identify women with strong leadership qualities and to build their capacity. 2. To promote a culture of respect and equality for the female gender. 3. To provide opportunities and programs for the female gender to be financially, mentally and emotionally empowered so as to promote their growth as individuals in their own right. 4. To make them aware of the

guidelines of the Supreme Court and to ensure that sexual harassment is treated as an unacceptable social behaviour within the Institution and the society. 5.

To get interacted with rural and urban women who lack formal education and identify projects suitable for upgradation using technology. 6. To conduct seminars and workshops to spread information on the numerous opportunities and tools available and train women accordingly. 7. To help the self-help group women to get financial support by identifying the sources. The Context: The

women cell is actively functioning under the leadership of the Principal assisted by a Coordinator, team of vibrant women staff members and student representatives. The College at present has girl's strength of 50 of the total number of students. Interestingly major chunk of the girl's population is hailed from a rural background. Hence the activities performed through the cell provide ample support for these girls to get enough strength in their

professional and family life. The womenfolk of 20 villages are getting much awareness to lead a healthy and happy life through the members of the cell. The

Practice: The Women Cell of the College is organizing many programmes with true spirit and dedication. Events related to achieving the objectives of the cell are normally hosted on the campus or in the adopted villages. The celebration of International Women's day is a regular feature of the college. Eminent women achievers and leaders are normally invited to address the girls. On this day, several motivating programmes will be organized for the girls to display their talents. Oral, written, artistic, stage performing activities visualizing the

current scenario related to the women folk will be the highlight of the programme. One such event was hosted on 6th March 2020 at our campus with the special address of the Eminent person of income tax Dr. I. P. ROOPA IRS, Deputy commissioner of Income tax, Income tax office,, Madurai. Suitable prizes and recognitions are awarded to the winners of the competition. Evidence of

success: Our campus is now a girl-friendly campus. Boys are respecting the sentiments of the girls in the proper way. No grievances regarding the ragging are registered on the campus for the past decade. The cell programmes make the girls get enough confidence and strength to take part in extracurricular programmes particularly in sports and cultural activities. Also, the

communication skill has been enlightened with a spirit of taking preparation for the competitive examinations. Girls' interaction with the teachers on subject matters is normally found in all classes. Their readiness to volunteer the society benefitted programme is an admirable one. Problems encountered and

Resources required: Since most of the girls are coming from remote villages, the institution has to struggle to conduct meeting after college hours and on holidays.
