DEPARTMENT OF BUSINESS ADMINISTRATION (C . A)

BUSINESS COMMUNICATION AND CORRESPONDENCE

Semester: I

Hours/Week : 4

Sub-Code:

Credit : 3

Objectives :

To acquire knowledge about Business Communication and correspondence

UNIT – I “ Basic Communication”

Communication – Meaning – need – importance – types – barriers to communication – structure and layout of letters – principles of letter writing – application for situation.

Outcome : To acquire knowledge about business communication and prepare structure and layout of letters.

UNIT – II “ Commercial correspondence”

Circular – trade enquiry – offer and quotations – status enquiry – orders - execution and collection.

Out come : To understand the commercial correspondence.

UNIT – III “ Banking and Insurance correspondence”

Banking correspondence – Insurance correspondence – correspondence with government departments and public bodies.

Out come : Collect the banking and insurance correspondence.

UNIT – IV “ Corporate correspondence”

Agenda and minutes – meeting – seminars – filling and index correspondence – report techniques of writing.

Out come : To conduct meeting, seminars. fillings and reports

UNIT – V “ Modern computers”

Modern computers – fax – email – video conference – internet – multimedia – website and uses.

Out come : To classify the modern communications

Pedagogy : (Teaching Methods)

Chalk and talk, Interaction method.

TEXT BOOKS

1. Commercial Correspondence and office Management – R.S.N. Pilli and Bhagavathi.

REFERENCE BOOKS

- 1 Business Correspondence and Report Writing – R.C. Sharma.
2. Essentials of Business Communication – Rajendra Pal and J.S. Korlahalli – Sulthan Chand & Sons Publications.
3. Business communication – Raymond V. Lesikar John D. Petttdt JR.

BUSINESS MANAGEMENT

Semester: I

Hours/Week : 5

Sub-Code:

Credit : 5

Objectives :

To enable the students

1. To develop familiarity with various levels of Management.
2. To understand the concept Authority, Responsibility and Accountability.
3. To acquire themselves with the latest development in the Field of

Management.

UNIT – I

Management – Meaning- Definition – Importance – Nature – Levels of Functions.
Management – Science / Art / Profession.

Out come : Describe the primary functions of Management.

UNIT – II

Contribution of F.W. Taylor – important aspects of scientific management – techniques of scientific management – Hentry Fayol – general principles of management. Planning – meaning – definition – importance – steps – types . MBO – process – merits – limitations.

Out come : Understand the work of major contributors to the field of Management.

UNIT – III

Forecasting – meaning – importance – methods – limitations . Decision making – process – types . Organizing – forms of organizations.

Out come : Explain the methods, process, and types of forecasting and decision making.

UNIT – IV

Direction and Supervision – Meaning – Importance – Techniques -Centralization and Decentralization –Delegation of Authority – Importance – Process.

Out come : Demonstrate the ability to directing and supervision.

UNIT – V

Controlling – meaning – definition – nature – importance – process. Co – ordination – principles – techniques.

Out come : Define controlling and explain its importance as management function and also determine the principles of co – ordination.

Pedagogy : (Teaching Methods)

Chalk and Talk, Students centered method

FUNTAMENTALS OF ACCOUNTING - I

Semester : I

Hours/Week : 5

Sub-Code :

Credit : 4

Objectives :

To enable the students

1. To understand the concept of accounting.
2. To apply principles of preparation of accounting records.

UNIT – I “ Introduction of accounting”

Accounting – meaning – definition – need – attributes and steps – objectives. Book keeping – difference between accounting and book keeping – advantages – limitations – group interested in accounting information – branches of accounting – methods – types – bases of accounting – accounting terminology.

Out come : Consequence the fundamental concept of accounting and book – keeping.

UNIT – II “ `Basic accounting concepts and conventions “

Meaning – classification of accounting concepts and conventions – characteristics - . journal and ledger – meaning – advantages – disadvantages – distinction between journal and ledger – problems.

Out come : Understand the basic accounting concepts and conventions.

UNIT – III “ Recording , posting and preparation of trial balance”

Meaning – definition – objectives – methods of preparation of trial balance – trade discount – cash discount – difference between trade and cash discount – Exercises – errors disclosed not disclosed by trial balance.

Out come : Assessing trial balance with posting and recording with problems.

UNIT – IV “ Final Accounts ”

Introduction - manufacturing account – trading account – profit and loss account – balance sheets – Exercises.

Out come : Explicate manufacturing accounting and final accounting.

UNIT – V “ Rectification of Errors ”

Meaning- definition- advantages and disadvantages - Classification of errors – rectification in different stages of accounting cycle – basic principles for rectification of errors – suspense account.

Out come : Obtain knowledge regarding analysis various type of errors and examining the suspense account.

Pedagogy: (Teaching methods)

Constructivists’ methods, Inquiry – based learning, Teacher centered methods.

COMPUTER FUNDAMENTALS AND OFFICE AUTOMATION

Semester : I

Hours/Week : 4

Sub-Code :

Credit : 2

Objective :

To learn the Basics of computers and Office tools.

UNIT - I

Introduction To Computers – definition – characteristics – history – types – generation of computers – basic components – memory system – algorithm – flow charts.

Out come : To learn about the computer and components , history, types, and basic components.

UNIT - II

Microsoft Word (Word Processing): Features of word – create, open, save a document – page setup – print – find replace – go to – font – paragraph – bullets and numbers – header and footer – insert picture, clipart, auto shape in a document – alignment properties – change case – mail merge – spelling and grammar – setting password to the document – auto correct menu and menu bars.

Out come : Demonstrate the various menus and its operation in word.

UNIT – III Microsoft Excel (Spread Sheet): Introduction - create – open – save excel sheet. Entering Formula – Excel Functions – Charts – add, rename, delete sheet – protecting work sheet – page setup – print work sheet – filter – conditional formatting – series – sorting.

Out come : Write up MS excel along with practical usage like preparation of student mark list, EB bill, salary, using formula, function and different types of chart

UNIT IV

Microsoft Power point (Personal Assistance): Introduction – create – open – save presentation – slide design – slide layout – add, delete slide – duplicate slide – custom animation – animation scheme – showing the presentation – recharge timing.

Out come : Creation of various slide design, layout and different format effect.

UNIT - V

Microsoft Access (Database): Create, open, save database – Understanding Access Objects – Create and Editing Database tables – Query – Reports.

Out come : Formation of pay roll for employees, student mark list and creation of forms and reports by using MS – access.

Pedagogy : (Teaching Methods)

Chalk and talk , OHP.

TEXT BOOKS

1. Computer application in Business – S. Sudalai muthu , S. Antony Raj – Himalaya Publications.

MS OFFICE LAB

Semester : I

Hours/Week : 2

Sub-Code:

Credit : 1

UNIT – I

1. Create A Folder
2. Rename the Folder
3. Delete the Folder
4. Copying the Folder
5. Moving the Folder
6. Hiding the Folder

UNIT II - MS - WORD

1. Create A Document For The Following
 - i. Bio Data (Use Formatting Options)
 - ii. Student Details (Use Table Option)
 - iii. Diwali Wish Letter To All Friends (Use Mail Merge Option)

UNIT III - MS-EXCEL

1. **Sorting Data**

Create The Following Worksheet In Excel:

Sno	Regno	Name	Age	Eng	Tam	Mat	Tot	Ave	Res
1	121	Ram	20	45	40	53			
2	153	Raj	19	50	52	63			
3	110	Balu	21	87	76	62			
4	140	Suresh	22	38	60	65			

5	109	Mary	23	71	20	84
---	-----	------	----	----	----	----

- Fill The Tot Column
- Fill The Ave Column
- Replace The Res With PASS For Ave \geq 50 Else FAIL.
- Format Ave Column With 2 Decimals
- Sort This List By Regno
- Sort First By Name Then By Age.
- Find The MAXIMUM Mark For Each Subject.
- Find The MINIMUM Mark For Each Subject.

2. Presentation Graphs

Create The Following Worksheet In Excel:

	A	B	C
1	AMOUNT IN CRORES		
2	YEAR	SALES	EXPENSE
3	1990	20	9
4	1991	25	12
5	1992	35	18
6	1993	42	25

Draw The Chart and Mention The Appropriate Headings

Experiment With Other Types of Charts By Changing The Selections

UNIT IV - MS- Power Point

- Create Your Own Presentation For Department Details and Give Animation.

UNIT V - MS- ACCESS.

- Create ADDRESS Table With Following Fields

FIELDNAME	DATA	TYPE
Name	Text	

Age	Number
Sex	Text
Street	Text
City	Text
Pincode	Number

Add 10 Records

Display The Fields Name,Street Alone On The Screen.

Display The Records For Age>20.

Display The Records For Age<20 and City="Chennai".

SORT The Table In The Ascending Order of Name.

2. **Create STUDENT Table With The Following Fields:**

FIELDNAME	DATA	TYPE
Regno	Number	
Name	Text	
Sex	Text	
Age	Number	
Degree	Text	
Percentage	Number	

Add Some Records

Display The Records For Sex="M" and Degree="BBA".

Display The Records For Sex="F" and Percentage Between 70 and 80.

Display The Records For Degree = "BBA" and Name LIKE "M*".

SORT The Table In The DESCENDING Order of percentage.

DEPARTMENT OF BUSINESS ADMINISTRATION (C . A)

Modern Business Economics

SEMESTER : II

Hours/Week : 5

SUB-CODE :

Credit : 3

Objectives:

To Enable the Students to know about the impact of economics on Business.

UNIT - I

Economics : Nature - Significance - Micro and Macro Economics - Distinction - Importance -Uses - Limitations.

Out come :

To acquire knowledge regarding economics for Business.

UNIT – II

Market demand analysis: Meaning - Determinants - Function - Demand schedule - Law of demand - Exception to law of demand - Types of demand

Out come :

To analysis demands and acquires knowledge regarding various types of demands.

UNIT – III

Elasticity of demand : Concept - Factors - Price elasticity of demand - Types of price elasticity - Pricing policy and methods - Objectives - Factors - Methods.

Out come :

Determine elasticity of demand and pricing policy.

UNIT – IV

Value of money - Definition - Concept - Standard - Measurement of changes - Index number - Features - Steps - Difficulties in measuring changes in value of money - Limitations - Importance - Types - Inflation - Deflation.

Out come:

Describe the standards of value of money and measurement of changes.

UNIT - V

Security - Meaning - Definition - Importance - Types - Money market - Monetary policy - Foreign exchange and Exchange control .

Out come :

Signify the concept of securities and Understand monetary policy formulation and Control.

Pedagogy : (Teaching Methods)

Chalk and talk, Visualization method.

TEXT BOOK:

1. Managerial Economics - Dr. P.M. Mithani
2. Money and Banking – R.R.Pul

ORGANIZATIONAL BEHAVIOUR

Semester : II

Hours/Week : 5

Sub-Code :

Credit : 5

Objectives :

1. To develop an understanding of interpersonal and organizational dynamics.
2. To develop the personality of an individual
3. To understand the emerging, issues in organizational dynamics environment.

UNIT - I

Definition- Need and Importance of Organizational Behavior - Nature - Challenges - Limitations

Outcome :

Varying behavior of organization and the challenges of organization.

UNIT - II

Foundations of Organizational Behaviour - Classical -Neo-Classical - Modern Approaches - Models of Organizational Behaviour

Outcome :

Aspects regarding classical and neo - classical and discover the models of organizational behavior.

UNIT -III

Personality - Theories - Traits Affecting Behaviour - Perception - Importance - Process - Interpersonal Perception - Motivation - Theories

Outcome :

Illustrate theories of personality and the theories related to the motivation and perception.

UNIT - IV

Groups - Types - Stages - Group Decision Making - Techniques - Power and Politics - Concept - Bases - Leadership : Importance - Styles - Theories

Outcome :

Acquiring groups, types, stages, and examine the leadership styles and theories.

UNIT - V

Organizational Culture and Climate - Characteristics- Creating and Maintaining Organizational Culture - Organizational Change - Nature - Factors - Process - Factors in Resistance To Change

Out come :

Analysis organizational culture and climate and infer the importance of organizational change.

Pedagogy: (Teaching Methods)

Chalk and talk, Teacher - centered Instruction method.

TEXT BOOKS

1. Organizational Behaviour- Sashi.K.Gupta
2. Organizational Behaviour - Aswathappa.

FUNDAMENTALS OF ACCOUNTING II

SEMESTER : II

Hours/Week : 5

SUB-CODE :

Credit : 4

Objectives:

1. To ascertain the financial performance of accounting.
2. To determine the concept of accounting principle and producers for practical problem and solution.
3. To acquire skill based knowledge for practicing.

UNIT – I “ Accounting Standards”

Introduction – meaning – definition – objectives – scope – procedures – compliance – applicability – accounting standards – International accounting standards.

Out come :

Aware to know various accounting standards for India and International accounting standards easy to examine the contents of accounting at advanced level.

UNIT - II “ Depreciation”

Meaning – characteristics – causes – objectives – methods of recording depreciations – methods of providing depreciation – straight line method – diminishing balance method – distinction between straight line written down value methods – annuity method – depreciation fund – Insurance policy method – revaluation method – depletion method.

Out come :

Illustrate and analyze various methods of depreciation and their causes.

UNIT - III “ Accounts of non – profit organization

Introduction – final accounts of non - profit organizations – receipts and payment accounts – Income and expenditure accounts – steps to prepare income and expenditure accounts - specimen form of income and expenditure accounts – balance sheet.

Out come :

To handle and assess non – profit organization receipts and payment, income and expenditure with simple problems.

UNIT – IV “ Departmental Accounting”

Meaning – need – advantages – distinction between departments and branches – methods - techniques - departmentalization of expenses – guidelines for apportionment of expenses – interdepartmental transfers.

Out come :

Applied accounts format for departmental store and inter departments.

UNIT – V “ Insurance claim”

Meaning – need for fire insurance – types of fire insurance policies – computation of claim to be lodged for loss of stock – gross profit ratio - - average clause.

Out come :

To enable and to get aware of insurance claim for fire accident.

Pedagogy : (Teaching Methods)

Chalk and talk , Constructivist method, Enquiry – based learning method.

PROGRAMMING IN C

Semester : II

Hours/Week : 3

Sub-Code:

Credit : 2

Objective:

To provide a thorough knowledge in high level programming language C

UNIT – I

Overview of C – History – importance – basic structure of C programs – contents , variables and data types – character set – C tokens – key words and identifiers – constants – variables – assigning values to variables.

Out come :

Explore the history, importance, structure of C program and tokens.

UNIT – II

Operators and Expressions – managing input and output operations – reading a character – writing a character – formatted input – formatted output.

Out come :

To familiar with fundamental concept of operation and expression input or output statement.

UNIT – III

Decision making and branching – Introduction – decision making with IF statement – simple IF statement – IF else statement – nesting of IF – ELSE statement – the ELSE IF ladder –

switch statement – The ? : operator – go to statement – decision making and looping – while statement – Do statement – For statement – Jumps in loops.

Out come :

Ability to understanding decision making branching and looping.

UNIT – IV

Arrays – one dimensional arrays – declaration of one dimensional arrays – initialization of one dimensional arrays – Two dimensional arrays – Initialization of - two dimensional arrays – multi dimensional arrays – user defined functions – elements of user defined functions – definitions of functions – return values and their types – function calls – function declaration – category of functions.

Out come :

To understand and practice the program for array functions and types.

UNIT – V

Structures – definition – declaring structure – variables – accessing structure members – structure initialization – file management – I.C – introduction – defining and opening a file – closing a file – input and output operations on files.

Out come :

Determine the programming aspects of structure and file.

Pedagogy : (Teaching Methods)

Chalk and talk, OHP.
