

DEPARTMENT OF COMPUTER APPLICATIONS

YADAVA COLLEGE, MADURAI -14.

DEPARTMENT PROFILE

DEPARTMENT OF COMPUTER APPLICATIONS

ABOUT THE DEPARTMENT

- ✓ The Department of Computer Applications was established in the year 2006, as an academic centre for undergraduate studies in science discipline. The department has well-experienced, dedicated faculty members with different specializations.
- ✓ Students are motivated to take part in software development contests, project exhibitions, seminars, technical quiz, paper presentations, programming competitions to get maximum practical exposure and so in co-curricular activities.
- ✓ In our department faculty members has published more than **15** Research papers including conference presented.
- ✓ Our department is a young child of Sixteen years old. In its childhood it has activated many a tremendous activity. We have organized many programs such as **17** programs, computer literacy programs to poor people, parent's computer training etc.

VISION

- ❖ To create a teaching, learning environment that will provide best opportunity for the students to develop as competent professionals, to serve the computing industry and contribute to our nation's socio-economic progress.

MISSION

- To educate students at under graduate level (BCA) in the fundamental and advanced concepts of computing discipline.
- To foster practical skills in our students with an emphasis on ethics, interpersonal development and professional competency.
- To prepare them to pursue exemplary careers in industries, academic and research.
- To impart the ability to use the expertise in computing to meet the ever-growing demands of the society.

GOALS

- The goal of the department is to provide high quality undergraduate education in computer applications by enhancing the effective teaching methodologies and to prepare student with the skills that are necessary for the success in the placement opportunities.

OBJECTIVES

- To prepare students to get job in various Software & other industries.
- To develop Leadership Qualities & individual skills.
- To educate the students to be successful computer application professionals in this global environment.
- To prepare the students to face real world problems and to lead a pleasant life.

PROGRAMME OUTCOMES

- Inculcates the ability to analyze, identify, formulate and develop computer applications using modern computing tools and techniques.
- Prepares to create design innovative methodologies for solving complex-real life problems for betterment of the society.
- To integrate ethics and values to design computer applications.

PROGRAMME SPECIFIC OUTCOMES

- Start from the basics and in every semester learns each and everything about computers.
- Develop programming skills, networking skills; learn applications, packages, programming languages and modern techniques of IT.
- Learn programming language such as C, Java, HTML, SQL, etc...
- Focuses on preparing student for roles pertaining to computer applications and IT industry.
- Gives good knowledge of the topics in software like networking, computer graphics, web development, trouble shooting, and hardware and software skills.
- Information about various computer applications and latest development in IT and communication system is also provided.
- Student will able to know various issues, latest trends in technology development and thereby innovate new ideas and solutions to existing problems.
- Bachelor of Computer Applications (BCA) gives a number of opportunities to individuals to go ahead and shine in their lives.

SWOC ANALYSIS AFTER ACCREDITATION

STRENGTH:

1. Our Department maintains and update our college website.
2. We have updated our syllabus related to software Industries.
3. Publish research paper (UGC referred journals).
4. Many of our staff completes their Research degree after joining in our department.
5. Implement E-Learning and E-teaching methods to handle classes and give assignment to our students.
6. Conduct remedial classes and support to pass the students those who have arrear in Semester Exam.
7. 50% of our passed students placed in reputed companies
8. Periodically we conduct technical seminars.
9. Focus on web designing paper to develop web developer.
10. Our department teaching is two way communication that is have an interaction with students and staff

WEAKNESS:

1. Insufficient books for reference in our department library.

OPPORTUNITIES:

1. Our students placed as a web developer in software industries in that manner we focus web designing as a certificate course.
2. Provide self study papers to improve the capacity of self learning of the students.
3. Provide non major elective papers which students gain knowledge from other department subjects.
4. Students earn while learn in their final year.
5. Our syllabus improve students technical knowledge.

CHALLENGES:

1. Need more coaching to mold the first generation learners.

2. Difficult to communicate with English because of more number of rural students.

Future Plans

- To be organize a national level workshop on Mobile Computing and App Development
- To be organize a International level Conference on Recent trends in Software Technologies
- To plan to design a upcoming syllabus based on OBE
