

DAY II

DATE: 28.02.2023 TIME: 10.00 AM

VENUE: NAGENDRANAR AUDITORIUM

"MADURAI SCIENCE FAIR"

It promotes and nurtures scientific research among young innovators. Student participants can submit mind-blowing innovative scientific solutions to existing and emerging problems to society through charts or models.

The fair recognizes and rewards outstanding projects. It also provides a platform for the winners to represent Madurai at the National Science Fair (IRIS), India, and the International Science and Engineering Fair (ISEF), the world's largest international pre-college science competition, held annually in the United States of America.

Visit to Research Laboratories of the College

The student participants will be taken to the Laboratory in batches to get information about the tools and protocols used for deriving the scientific data.

Last Date for the Registration: Feb.15, 2023

No Registration Fees

Abstract of the project is to be submitted at the time of registration.

About The College

Yadava College, Madurai, Tamil Nadu is one of the leading educational institutions in Tamil Nadu, serving the rural students for more than five decades with diversified courses including vocational programmes, excellent infrastructure, competent faculty and research opportunities. The college has carved a niche in the educational field in offering placement opportunities and training for competitive examinations. The research departments of the college has created a strong impact on the research activities for the last two decades.

Science Club

The Science Club of Yadava College is dedicated to communicate scientific information and developments to the students and public. It aims to generate science education and scientific research to the international standard among the youth of this region. It encourages students to develop science communication and scientific thinking to attain the scientific spirit at the undergraduate level. The club organises hands on trainings for skill development, field trips to national laboratories and connect to scientists programme for generating an interest in science.

The Science and Technology Innovation Centre:

It is dedicated to popularizing internationally acclaimed scientific research and science education to students as well as to the public. The centre also aims to develop an attitude toward research among the students of science. Mentoring and Guiding students to get into the right science stream are the main goal of this centre. Also, assisting the students to take part in different science competitions organized at the national and international levels.

Popularisation of Basic Sciences:

The basic objective of the program is to popularise the educational and research opportunities in the basic sciences among rural school students. This will attract talented students to the fold of basic science at an early age and thus pave the way for building the best human resource pool in Science&Technology.

Eligibility to Participate:

Students studying in X and XI (Science Stream)

Two students with a teacher from each school can participate

One Project from each class either in chart or in model can be presented in the fair

Recognitions

★ Best Project will be suitably awarded

★ The chosen projects will be forwarded to National and International Science Fair

★ Participation certificates will be issued.
